## REPORT OF SCHOOL BOARD.

---

In accordance with a law passed during the January session of 1895, calling for an annual enumeration of children between the ages of five and sixteen years, an agent was appointed by the school board to take a census, with the following result: Whole number of children within the above mentioned ages, 560; number who have attended school during the year, 230. The difference may be accounted for in this way,—the greater part attend the parochial school, the remainder stay away on various pretexts, the parents not seeming to realize the injury they are doing the child by allowing him to remain away from school. Let us hope next year will see a larger attendance at our public schools.

The blackboards throughout the town have to be repainted each year to keep them in good condition. In order that we may lessen this bill of expense, we have placed in the school-house at the village 238 square feet of slate blackboard. It has a smooth and polished surface which will not reflect the light or grow glossy with use; in other words it is in all respects permanent. If a few feet could be added each year we think it would be a step in the right direction.

There have been several changes made in text-books during the year. Smith's physiology was found inaccurate, and was replaced by Hutchinson's, a book thoroughly up to date. Frye's geography has been substituted for Butler's, and seems to be giving general satisfaction.

As a mental stimulus the school board after examining a series of arithmetics finally decided to introduce the old "Warren Colburn's," which has been thoroughly revised, although still retaining its former individuality.

A set of language charts have been placed in the different schools to aid the pupils in grasping the fundamental principles

of grammar. These charts are well illustrated, and seem to be appreciated by the teachers as well as scholars.

The Second Primary school at the village which has been closed for the last two years was last fall reopened to help accommodate the entering class which was unusually large.

Our teachers as a whole are fully up to the average in ability and enterprise, faithful and energetic in their work; this, with the hearty co-operation of the parents, accounts for so little friction and such a prosperous school year.

The annual school meeting will be held at the Town Hall, Saturday, March 12, 1898, at two o'clock P. M. The thanks of the board are extended to all who have in any way aided in promoting the interests of our public schools.

Respectfully submitted,

EDMUND E. HILL,  
J. HOWARD ROBINSON,  
SARAH F. DEARBORN,  
*School Board of Pembroke.*
